## Official Paper of Cochise Co.

FRIDAY DECEMBER, 29, 1899.

THE response to the call for contributions to a fund for the benefit of the family of General Lawton has been most generous both east and west, but we have thus far seen no list of contributors from Arizona.

ANDREW CARNEGIE has made the city of Lincoln, Nebraska, a conditional gift of \$75,000 for a public library building. The conditions are not stated, but are supposed to be the usual ones of a suitable site, free from encumbrance and the maintenance of the library. The Lincoln public library was burned last September.

It is stated that Mr. Goebel's delay in filing his notice of contest for the governorship of Kentucky arises from the uncertainty as to whether he can get a committee of the legislature favorable to him. Under the Goebel law the committee to hear the contests is selected by lot, three members from the senate and eight from the house. By this system it might easily happen that a majority of the committee would be against Goebel, in which event the legislature, in order to seat him, would have to overrule the report of its own committee.

EX-SENATOR JOHN J. INGALLS, when interviewed in El Paso on last Sunday by a reporter from the Herald said: "Since I am a newspaper writer now myself I have to husband my ideas for my own use. On the present political situation I have only to say that I am a Republican. That covers the whole ground of my views on current political matters. On the subject of the Boer war I am pro-Boer. I am heartily in sympathy with the Boers and glad of their recent successes. No man can foretell the outcome of the war." Evidently Mr. Ingalls is not a believer in the Anglo-American alliance.

"If the war in the Transvaal continues for two or three months longer the cause of silver will have been won," said former United States Senator Dubois, of Idaho, one of the Silver Republican leaders, in a recent interview. "The short time it has been in progress," has furnished proof of the conditions of the friends of silver that there is not enough gold in the world to form the basis of the world's money, and if the war continues the length of time I have indicated the truth of this will have become too apparent for successful contravention."

THE Albuquerque Citizen reports the reception given on Christmas afternoon to Senator Shoup of Idaho, chairman of the Senate committee on territories; Senator Clark of Wyoming, chairman of the committee on public lands; Hon. Binger Herman, commissioner of the general land office, and General Ainsworth, of the war department. The Citizen report states that during the reception Senators Shoup and Clark and Land Commissioner Herman made short addresses, and each in very forcible language favored the admission of New Mexico and Arizona into the union of states. These gentlemen are in a position to greatly assist us in obtaining statehood, and it is encouraging to note that they have so positively expressed themselves as favoring it.

## COPPER IS THE METAL.

The Cochise Copper Mining Company.  
Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over \$4,000,000 pounds during the year 1898, and the net proceeds of such production are reported to have been over \$2,000,000, and it has been said by experienced miners who have been under its employ for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blast set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee, and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at twenty five cents per share. No application for less than 100 shares will be accepted.

The company reserve the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property.

Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.
